

Bundelkhand College boasts of rich Alumni who serve as brand ambassadors, provide invaluable mentorship and career support for current students, offer a wealth of practical and academic knowledge and build strong network to enhance our College reputation and attract future talent. This association comprises judges, public representatives, social workers, academicians and reputed personalities of many other varied fields, and this fact heightens the prestige and recognition of our college.

Our college takes great pride in the achievements and accomplishments of our alumni. We wish to bring valuable pieces of advice, experiences and any other contribution from our alumni that are needed to help improve and serve our college and the society at large. Therefore, college has constituted an alumni cell to provide a platform for our alumni to increase their involvement with their alma mater and foster interaction between them.

We invite and solicit the presence of all former students of our college. We are one big family and share and rejoice in the success of one another. For us, alumni are not our past or former students – they are our future who may make strong contributions to the welfare of their alma mater.
